

HANDSPRAY FLOW RESTRICTOR

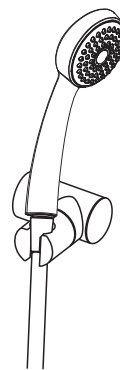

Where water conservation is an issue, a flow restrictor supplied with the fitting, which will limit the flow to 8l/min, should be inserted in the handspray inlet as shown.

Note: when this restrictor has been inserted it cannot be removed without destroying it.

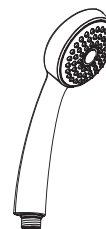

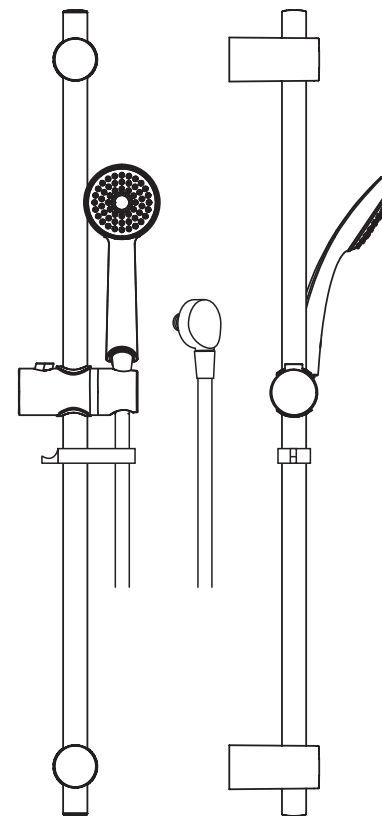

If higher flow rates are required the restrictor should be left out.

ARMAGLIDE 2 SHOWER KITS INSTALLATION INSTRUCTIONS

Suitable for high pressure only (i.e. 1.0 bar minimum)

B9308AA Shower Set Single Function
